**Reminder to Gulf of Mexico Commercial Reef Fish Fisherman that the
Greater Amberjack Trip Limit is 2,000 Pounds Whole Weight**

NOAA Fisheries reminds the commercial reef fish fisherman that the trip limit for greater amberjack in the Gulf of Mexico federal waters is 2,000 pounds whole (round) weight. Using the standard conversion rate between whole (round) weight and gutted weight, 2,000 pounds whole weight is equal to 1,923 pounds gutted weight. Fishermen should ensure they do not land more than 1,923 pounds of gutted greater amberjack per trip.
